

The College of Animal Welfare

Accessing the Clinical Coach Area

The Clinical Coach Area can be found on the CAW VLE: <http://vle.caw.ac.uk>

1st time visiting the VLE?

1. Log into the CAW VLE using your 6-digit ID
2. Your password is: **changeme** (all one word, all lowercase)
3. Now set a new and secure password.

After logging in, click on the Clinical Coach icon (pictured top-right) and enter the following, case-sensitive, enrolment key: **CAWccNEW**

It is very important that the College has your up-to-date email address. Apart from receiving important updates (no SPAM from us!) our automatic password recovery system will email you a temporary VLE password.

Training Material

As a part of the College you have free access to our comprehensive and interactive training material. Just click on the link to **Vet Logic** from within the Clinical Coach Area.

My password doesn't work

You have four attempts at entering your password. As a security measure, five incorrect password attempts will lock your account. If you see a message from the VLE stating you have been locked out, please contact the College and ask for your VLE account to be unlocked. You will then be asked to create a new password.

Creating a new password

Visit the CAW VLE log-in page and click on **Retrieve my password**. Now enter your 6-digit ID. A temporary password will be emailed to you. Return to the VLE log-in page and enter your ID and then copy and paste the temporary password. Now create a new memorable and secure password.
