

The Role of the Veterinary Nurse

The College of
Animal Welfare

Veterinary nurses are highly skilled members of the veterinary team, who look after our pets with care and empathy every single day. They perform a range of important duties such as...

Preparing
animals
for surgery

Running nurse
clinics such as
diet, worming
and grooming
consultations

Nursing
sick
animals

Taking
bookings and
completing
paperwork

Advising
owners on
pet welfare

Monitoring
anaesthetised
animals

Taking x-rays
and carrying
out diagnostic
tests

Preparing animals
for surgery and
performing
minor surgical
procedures

Answering
phones and
welcoming
clients

And
much
more!
